Shopping Widget

<p>Escalations

None

Accomplishments

The Extractor code committed to CVS.

Did first drop to QA.

Fixed error handling and added Netcool logging.

Reviewed the impact of text only specials and we are able to handle them fine.

Met with the P13n core team to discuss multi brand support. Also, discussed support for the widget after the widget bullet team moves on to their next project in mid May.

Issues

The widget bullet folks are strapped for resource. They can only commit 1 day a week for the shopping widget. They expect to be able to devote more time after the end of April.

The P13n core team needs to take on the shopping widget. (We have already brought it up with them)

Next week

Fix any problems found by QA.

Resolve multi brand support.

Product Page Anywhere

<p>Escalations

None

Accomplishments

First drop to QA done, with both email and print features available.

Issues

none

Next week

Fix bugs found in QA.
